SILKE MARSEN INTERIORS

Luxury Handmade Carpet Collection

## The story of the designer

Silke Marsen

Textile design is creativity and understanding of craftsmanship & functionality, transformed into fabrics as mesmerizing as nature itself. Ever since I remember, I have loved to draw and paint. Today I also enjoy nature photography and use my pictures and drawings as inspiration for textile patterns for the home textile market.

With over 25 years of extensive experience in design services and colour concepts for high-end brands, I draw inspiration from nature, architecture and cultural motifs to conceive patterns that evoke emotions, tell stories, or simply delight the senses. The rhythmic repetition of geometric shapes, the organic flow of floral motifs, or the bold clash of contrasting colors - patterns have the power to imbue fabrics with personality and character.

Inspired by the beauty of nature, I am proud to present my latest carpet collection 'Gardeners of Paradise'.

# Gardeners of paradise

Luxury handmade carpet collection  
in finest materials

You can bring your paradise home!  
Nature inspires us, nurtures us, heals us.

With our bespoke premium carpets, we grow and trim yours and our ideas of paradise for your home and make it the best quality and artwork that we can imagine. Indulge yourself with a long-lasting piece that lifts up the atmosphere of your space.

We are the gardeners of your paradise at home and your flowers and plants will keep on blooming forever in the finest merino wool and fine bamboo silk or in a super soft sustainable yarn made from PET, that was saved from the ocean to protect endangered species.

## Monstera

hand tufted  
hand carved  
75 % finest New Zealand wool  
25 % bamboo silk

# Monstera

---

The decorative leaf of the Monstera is always beautiful to relax your eyes on a natural green. The golden viscose background reminds me of valuable paintings from the time between 400-1450 a.D. where the golden background was meant to symbolise heaven.

Paradise Flower

hand tufted  
hand carved  
100% finest New Zealand wool

## Paradise Flower

---

I am fascinated by the rhythm of the leaves that have the same colour, but appear differently in individual shades, as the angle to the viewer and the sun changes. We achieve this rhythmic effect using different levels of carving and the light plays with the relief.

Osaka

hand tuftet  
hand carved

100% finest New Zealand wool

# Osaka

---

Like a jade stone with a carved wave, this luxury carpet is made in many hours of finest craftsmanship by a group of female artisans, who love to work with their hands.

Golden Sun

hand woven  
40% cotton  
60% linen/viscose mix

Stormy Sea

hand tufted  
hand carved  
100% finest New Zealand wool

## Stormy Sea

---

I am fascinated by the foaming waves of the sea, as well as the incredibly dense quality of this hand tufted rug, which depicts the waves as a relief and holds its shape due to the density and steadfastness of the high-quality wool fibers.

### Stone Corfu

hand knotted  
hand carved  
100% finest New Zealand wool  
semi-worsted

## Stone Corfu

---

An abandoned house at the beach on the beautiful island Corfu caught my attention because of the eroded paint on the walls - layer by layer show different times of this house, rose on the surface, mixed with a darker rust and a light chalky blue, this wall is beautiful and I find it worthwhile turning it into a luxury carpet.

Coco Moss

hand tuftet

13% finest New Zealand wool  
7% spun viscose, 47% chenille viscose,  
22% felted New Zealand wool  
11% boucle wool

## Coco Moss

---

A mixture of yarns in a checkered design brings the timeless elegance of Coco Chanel into your living room while combining beautifully the different colours of the surrounding.

**Dolomiti Mountains**

hand knotted 150 knots  
100% finest New Zealand wool,  
semi-worsted

# Dolomiti Mountains

---

A beautiful view of the mountains, changing with the light of the sun, always new. I have captured this amazing nature in my carpet-design and followed the movement of the mountains.

## Purple Wood

hand knotted 150 knots  
96% finest New Zealand wool  
semi-worsted  
4% pure silk fine spun

# Purple Wood

---

A salty water fountain dried the stem of this huge tree making it age quickly. The annual rings are my inspiration for this beautiful natural design in which I just changed the colours from a pale white-grey to lively tones of burgundy and purple.

Light and Dark

hand woven Kilim  
98% finest New Zealand wool  
2% viscose as accent colour

## Light and Dark

---

These luxury Kilims in finest New Zealand wool are hand made on a Kilim loom and show a beautiful twill structure that is mirrored to form a diamond shape. The colour accent woven at both ends in fine spun viscose brings a modern twist into the classical simplicity of this rug. The tied fringes make this rug even more unique.

# Your individual carpet

Shape, size, colours

All designs are available in any shape and size.

You can get an artwork and sample in advance to see if the carpet will perfectly suit your home. In addition, you can choose any colour and define it with either RAL, Pantone, ARS or Chromatone.

If you want to define the colour by a piece of fabric, please keep in mind that this can delay the process by about a week, as it has to be sent to the production team and converted into a dyeing recipe for wool.

I hope you enjoy designing your living space.

yours
